Let Your Customers Pay You Now

$[FNAME|Customer|Guest]$,

Every business owner or CEO looks for a way to easily reduce receivables. The problem is how.

POMeSYS-Remote allows your customers to pay you for their open invoices with a credit card on file. Customers simply log in to your web portal and view their open invoices. They select which ones to pay by credit card. If they do not pay on time, they will not be able to place their orders and receive products. This simple, but effective, tool will help lower receivables and increase your cash flow.

To go over the details, TwinPeaks Online is hosting a free, 30 minute webinar on Monday, December 9 at 12:00pm noon Pacific Time (3:00pm Eastern). For anyone wishing to see how POMeSYS Remote can save you labor cost and allow your customers to pay you immediately, register below.
