

## Say Goodbye to Paper Delivery Tickets

Do you spend too much time dealing with paper invoices or delivery slips? **With POMEroute-Android from TwinPeaks Online, eliminating paper invoices is extremely easy** (keep reading for our special offer!):

1. Buy a new or used 8" Android tablet for each driver.
2. Download all invoices/delivery tickets for each route and have the driver adjust them on-site.
3. Upload signed delivery tickets directly to POME SYS.

That's it! With our solution, you eliminate driver math errors during manual adjustment, eliminate lost delivery tickets, and ensure that proof of delivery (electronic signature) is collected at time of delivery. **Because everything is electronic and wireless, there are no mistakes, no lost tickets, and no missing signatures.**
